DIGITAL ADVERTISING

**TAKING MARKETING
VALUE TO NEW HEIGHTS**

BANNER AD ON THE MENU SCREEN

BANNER AD ON THE MENU SCREEN

- ✓ The banner ad on the menu screen of the airline's IFEC system, provides advertisers with the ability to present their ad to the passengers, whenever these are browsing the home screen menu.
- ✓ Eye-Catching presence in the IFEC environment immediately on the home screen.
- ✓ A link to a customized HTML5 landing page can be implemented. The HTML5 landing page can include text, picture and/or video
- ✓ High CTR (> 5%). This result, thru the exclusive placement of the banner and the possibility of enrichment thru high-quality content (link to landing page).

VIDEO AD ON THE MENU SCREEN

- ✓ Welcome Screen Video Ad provides advertisers with the ability to exclusively present their ad to all passengers whenever they are accessing the IFEC System.
- ✓ Appears whenever a user accessing the IFE application. A link to a customized HTML5 landing page can be implemented.
- ✓ Unrivaled high CTR of up to 11.5% based on exclusivity positioning on the non-skippable entry site of the IFE application.

Facts:

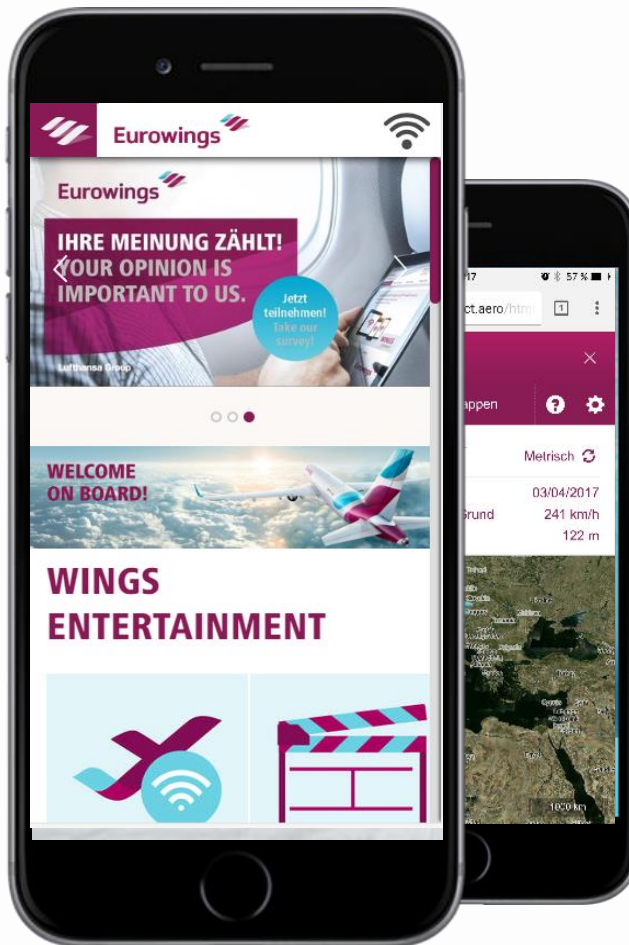

- ✓ Landing pages are locally saved to the aircraft's server that powers the IFEC system.
- ✓ The aircraft's IFEC system works device- and browseragnostic and no app is required.
- ✓ The landing page is programmed and owned by the ADVERTISER. (landing page programming can also be offered by LXM if requested. Prices are subject to the landing page complexity)
- ✓ Vouchers or coupons can be made available for download, independently of the aircraft's connectivity status. The system tracks all voucher downloads and reports showing the interactivity onboard the aircraft will be generated and delivered to THE ADVERTISER.

VIDEO AD PRIOR TO DIFFERENT CHANNELS

- ✓ Video Ad prior to different channels provides advertisers with the ability to exclusively present their ad to passengers whenever they attempted to browse through these channels. More than 65 % of all interacting passengers are watching the moving map during their flight.
- ✓ Appears just before a passenger starts the application. A link to a HTML5 landing page can be implemented.
- ✓ Unrivaled high CTR of up to 11.5% based on exclusivity positioning on the non-skippable entry site of the IFEC application

PERSONALIZED, INDIVIDUAL MENU ICON

Your interactive landing page will be available on the IFEC System as a standalone item in the general menu. Create your own tile (icon) that brings the passenger straight to your linked information channel. This can be anything from a newsletter subscription form, video or audio content, until a digital shop.
